

Indicator	Query	Response	Date
Education & Training Education 5	Education/Training indicators 1/3/5/8/9 refer specifically to 'practice-employed' staff. Does this mean that where all such staff in a practice are employed by the Trust, they can't claim for these points at all?	These indicators can only be achieved if practices employ some staff themselves, even if this is only one. They do not apply to "attached" staff.	June 2007
E1	Does E1 apply to GP principals who are independent contractors?	No this indicator applies only to employed staff therefore salaried or assistant GPs only. Good medical practice would suggest that GPs should ensure their skills are maintained but no contractual obligation.	27/06/11
